Program Location:

Oras Panciu 625400 Judetul Vrancea - Romania

Program Duration:

Overall project from September to January 2012.

Program objectives and goals regarding the activities:

Based on the “*social circus*” method, the project aimed to provide formal and non-formal educators with the necessary knowledge to carry out similar projects by their own, thus being “agent of changes” in children’s education.

Easy to learn, “*social circus*” method is universal and quite accessible to everybody. Each person, in accordance with his own abilities, is able to realize his potentiality through the wide gamut of activities that the circus offers.

It needs just a very good trainer, able to prepare training participants to play a part in juggling, clowning, magic, balancing acts, working with costumers to personify different people and situations.

Such training will also provide an opportunity for formal and non-formal educators to share common experiences within their social context, thus enhancing their capacity of collaboration by facilitating exchange visits and partnership.
